

The new **Research.gov Desktop** is an intuitive and flexible online workspace that is designed to provide NSF staff with a “go-to” resource to find tools and information to help them conduct mission-critical business throughout the proposal and award management lifecycle.

This is just the beginning for the **Research.gov Desktop**. Find Reviewers and What We Do, the initial staff tools available through the **Research.gov Desktop**, illustrate the kinds of exciting tools and services that are possible with the Desktop’s modern technology environment. NSF has introduced several new concepts, including the Award Manager and Proposal Search, into Research.gov Labs, Research.gov’s new electronic test kitchen where staff can experiment with concepts under development by Research.gov or other NSF colleagues for the Desktop.

In addition to providing tools for staff, the Desktop provides easy access to Research.gov’s publically-available services, including Research Spending & Results, Policy Library, News and Events, and the new Science, Engineering, & Education Innovation (SEE Innovation) service.

Getting Started

To access the Desktop:

1. Navigate to www.research.gov/desktop.
2. Log in using your NSF LAN ID and Password.

The screenshot shows the Research.gov Desktop login interface. At the top is the Research.gov logo and the tagline "POWERING KNOWLEDGE AND INNOVATION". Below this is a navigation bar with "Home" and "Help" links, and a date "May 24, 2011". The main content area is titled "NSF Staff Login" and includes a "System Use Notification" section with a disclaimer about the federal government computer system. Below this is an "Access to Sensitive Information" section with a warning about sensitive data. At the bottom, there are input fields for "LAN ID:" and "Password:", and "Log In" and "Cancel" buttons.

2.

After logging in you will be taken to the Research.gov Desktop. You can begin using Desktop services by selecting the link to the service from the left-hand navigation.

The service used to view the details of a publication is currently unavailable. We apologize for any inconvenience that this downtime may cause.

My Desktop

Explore the new NSF Research.gov Desktop, an intuitive and flexible online workspace for NSF staff. The first new tools to be offered on the Desktop, Find Reviewers and What We Do, help to illustrate the kinds of exciting tools and services for staff that are possible through Research.gov. Try out the Desktop today and tell us what you think! NSF needs your feedback and input to help shape this workspace and the new tools that it offers.

The ultimate goal for the Desktop is to provide staff with an integrated location where they can access the resources needed to support their program work – a seamless experience for completing a variety of mission functions! The Desktop will provide easy, centralized access to the services, tools, and grants management information you need, including:

- Existing information (such as Principal Investigator and Reviewer data) provided in a single view, which can be utilized in dynamic ways previously not possible
